

Impact Hub Summer School Portfolio Review 2016 Proposal

Facilitator-Liberty Elementary: Kathleen Mazurek
mazurek.kathleen@gmail.com

Overview:

Liberty Elementary's Summer School Program Student Portfolio Review at Impact Hub will help foster students with 21st Century Skills of self-promotion and expanding social networks within a real-world setting.

The event will also provide a context for communal work spaces within the startup community. The Idea Lab functions as a communal work space within a school setting and students will have the opportunity to tour Impact Hub's offices, interview staff and have a Q&A with startup companies who currently utilize the space. Students will present their summer design projects and receive feedback from mentors from various backgrounds, such as graphic design, game design and orthotics design.

In turn, Summer School Portfolio Review will also promote the Idea Lab for future collaborative events in the 2016-2017 school year.

- Pie Cycle

Portfolio Review Talking Points for Mentors and Mentees:

- **We will frame the review with students in advance, in that this is their first experience with a portfolio review in a new setting**

- **Goals**
 - **Highlight a strength (what's your preferred medium?)**
 - **Highlight a potential area for exploration, how can we grow your skills further?**
 - **Highlight a style (what market would this work best fit, if you were to hire this designer or promote artwork)**
